Summary

Cybersecurity Engineer with 4+ years across cloud security, incident response and compliance. Built security programs from scratch, JIT IAM for 140+ engineers, SIEM deployment, 100+ vulnerabilities remediated and PCI DSS implementation across SaaS and enterprise environments.

Professional Experience

Associate Security Engineer , Phorest Salon Software 🔗 - Identified IAM privilege risks across the organisation and engineered a Just-in-Time (JIT) integration, eliminating standing permissions for 140+ engineers and reducing breach blast radius company-wide. Built a SIEM from scratch, defining 60+ detection rules and ingestion pipelines establishing centralised real-time threat detection across the organisation for the first time. Drove end-to-end remediation of 100+ critical vulnerabilities over 12 months, reducing exploitable attack surface by coordinating fixes across 5+ engineering teams. - Contributed to PCI DSS compliance implementation across 15+ in-scope systems, handling technical controls, evidence collection and gap remediation as core contributor. - Embedded automated misconfiguration detection into 10+ CI/CD pipelines (GitHub Actions) and Terraform IaC, preventing security issues from reaching production.	02/2024 – present Dublin, Ireland
Cybersecurity Analyst , NTT DATA 🔗 Responded to 30+ security incidents over 18 months, containing active intrusions and minimising client impact through timely triage and mitigation. - Monitored live environments across 5+ enterprise clients via SIEM, IDPS, WAF and patch management, maintaining continuous threat visibility. - Applied NIST CSF, MITRE ATT&CK, OWASP TOP10 and Diamond Model to investigate 50+ vulnerabilities, delivering actionable threat intelligence to client security teams. - Led ISO 27001 audits covering 100+ controls across HIPAA, DORA, eIDAS2, GLBA, PCI DSS, GDPR and NIS2 for a major European bank.	07/2022 – 01/2024 Milan, Italy
Digital Advisor , Italian American Chamber of Commerce - Chicago 🔗 - Built a custom CRM adopted by 30+ member companies, boosting customer retention by 500% within 6 months. - Developed a members only web portal with dynamic statistics, improving service value for 50+ active members.	07/2019 – 09/2020 Milan, Italy

Skills and Technologies

• Jira	• ISO 27001	• AWS	• ATT&CK framework
• Incident Response	• Terraform	• Docker	• JIT/PAM

Certificates

CompTIA Security+ 🔗	AWS Security Specialty Ongoing
----------------------------	--

Education

Master's in Cyber Risk Strategy & Governance , Bocconi University & Polytechnic of Milan 🔗 Final paper: "Optimizing Threat Intelligence: A Strategic Framework for an Enhanced Cybersecurity Posture"	09/2021 – 04/2024 Milan, Italy
Bachelor's in Management & Economics , Bocconi University 🔗 Final paper: "Threats, investments and performances of Italian companies in cyber security during 2020".	09/2018 – 09/2021 Milan, Italy
